East Central/Select Sires accepts applications for 2019 summer internships

WAUPUN, Sept. 19, 2018 -- East Central/Select Sires, based in Waupun, Wis., and serving southern Wisconsin, has four internship opportunities available for summer, 2019: three in artificial insemination (A.I) and one in communications.

The A.I. specialist interns will have the opportunity to experience a career in the A.I. industry and work with the breeds' most elite females to produce the next generation of impact bulls and females. This internship provides the appropriate individuals the opportunity to learn and provide A.I. in both large-herd commercial operations and registered elite embryo programs throughout southern Wisconsin.

The communications intern is responsible for a variety of projects within the areas of public relations, written communications, print advertising and promotions, video creation, and social media. The appropriate applicant will also receive a broad range of experience with all East Central/Select Sires programs and services.

Visit <http://www.eastcentralselectsires.com/careers/> for information on how to apply. The application deadline is Oct. 31, 2018.

East Central/Select Sires is a professional genetics and artificial insemination (A.I.) cooperative. They specialize in providing quality service to dairy and beef producers throughout southern Wisconsin in both artificial insemination and heat detection. In addition to selling semen from many of the best sires in the World, East Central offers a variety of other products and services to help producers maximize profitability.
